

# The EfVET conference in Cardiff 22 – 25 October 2003

## Best Practice in Competence Based Learning

Stefano Tirati welcomes the conference participants

The conference venue

Hans van Aalst, the EFVET president opening the conference

## Conference Theme

The conference focus on sharing and promoting among practitioners good examples of practice on the conception, design and implementation of vocational education and training schemes.

The aim of the conference is to give to delegates the opportunity to discuss, with plenary sessions and with a number of parallel workshops and round tables, two important dimensions:

- political issues arising from European debate on VET and the management of VET organisations
- effective practical solutions to the challenges faced by European practitioners

For this reason the two subtitles of the 2004 Conference are:

- Leadership and change of VET institutions in the light of LLL
- Concrete examples of practice of learning at the workplace

Hans van Aalst, the EFVET president presenting the conference conclusions.
