DISCO

Digital Second chance Opportunities

THE PROJECT

DISCO focusses on quality improvement of second chance education. The development of an online knowledge and quality centre is positioned centrally. In this centre digital assessment tools, good practices and trainings are available.

The developed tools will open up the opportunity to think and act borderless in European second chance education and upgrade national developments to a European, transversal, settings.

DISCO

A European wide online platform for second chance education is built as knowledge and quality centre. The developed tools create the opportunity to think and act borderless in European second chance education. The centre will upgrade national developments to a European, transversal, setting: further education of teachers, qualitative benchmarking of schools, tools for working with beneficiaries and validation of international placements are at the heart of the centre.

An online and offline European community of teachers/trainers in second chance education is targeted. In this community teachers and trainers can share, discuss, develop and value their practices and ideas.

RESULTS

- An online grading system for good practices in second chance education to prosper European exchange of the best tools, methods and curricula
- An online assessment tool for (continuous) organisational benchmarking and improvement of second chance education providers
- A tailor-made e-portfolio tool to validate (international) placements in second chance education
- An user driven and demand led European community of teachers and trainers to share and create a European area of second chance education
- A training database for continuous education for teachers/trainers to prosper competence development, increasing knowledge and sharing of ideas
- A self-assessment tool for teachers/trainers in second chance education for personal reflection and professional development
