

# Launch of [www.SecondChanceEducation.eu](http://www.SecondChanceEducation.eu)!

*Everyone deserves a second chance - at love, life, and learning. The [www.SecondChanceEducation.eu](http://www.SecondChanceEducation.eu) platform is designed especially for you: the teachers and trainers of second chance education. We provide you with a variety of tools and initiate an active network of second chance education practitioners.*

## YOUR WISH IS OUR MANDATE

Research conducted across the countries of our partner organisations revealed that there are particular needs within the field of second chance education. Respondents expressed the wish to collaborate with other teachers (20%), improve professional competencies (18%), connect with teachers across Europe (16,97%) and develop EU projects and twinning between schools (16,97%). Improving teaching skills (24%), keeping up-to-date on European initiatives in education and schools (23%), finding new training materials (21%), and sharing pedagogical methodologies (17%) are the most desired outcomes from this community. 40% of respondents wanted to discuss opinions with fellow SCE practitioners, and 39% wanted to share resources and learning tools.

On the platform you will find good practices, trainings for professional development and a mobility handbook, as well as the opportunity to connect and discuss with colleagues across Europe. Both content and community are growing! The tools are digitized and thus we also transfer this knowledge from the analogue to the digital.

## BEST PRACTICES

An overview of the best practices in the triangle of learning, living, and working today, gathered to provide inspiration, concrete suggestions or a benchmark against which to compare your own activities. You can get involved and contribute as we build the largest database of learning methods and good practices!

## PROFESSIONAL DEVELOPMENT

Continuing professional development strengthens your capacity as an educator, which in turn increases the life chances of the NEETs and adult learners you work with. Learn from our partnered teachers and trainers as they effectively guide you through a wide variety of trainings, from child protection to effective mentoring.

## MOBILITY HANDBOOK

Mobility experiences can be very rewarding, but also require extensive planning - both for the learner and for the staff of supporting institutions. We provide a package of tools aimed at the teachers, institutions, host organizations and learners, offering a framework of information before, during and after the placement.

## CONNECT!

The European learning platform for teachers is constantly evolving and never complete. We invite you to share your knowledge and become part of the living tapestry of Second Chance Education! How can you contribute?

- Add your best practice(s)
- Add your training(s)
- Contribute your ideas or advice on mobility
- Follow us on Twitter
- Join the Facebook community and discuss with our 100+ members

Grab the opportunity to contribute, connect, share, and discuss! We look forward to sharing ideas and learning from one another.
