Everyone deserves a second chance - at love, life, and learning.

The [www.SecondChanceEducation.eu](http://www.SecondChanceEducation.eu) platform is designed especially for you: the teachers and trainers of second chance education. We are the European learning platform for teachers, providing you with a variety of tools and initiating an active network of second chance education practitioners.

**Your wish is our mandate**

## Desired outcome

Results of research conducted as basis for [www.SecondChanceEducation.eu](http://www.SecondChanceEducation.eu)

Research conducted across the countries of our partner organisations revealed that there are particular needs within the field of second chance education. These results are shown above. 40% of respondents also revealed that they wanted to discuss opinions with fellow SCE practitioners, while 39% wanted to share resources and learning tools

## What we offer

- **Best Practices**

An overview of the best practices in the triangle of learning, living, and working today, gathered to provide inspiration, concrete suggestions or a benchmark against which to compare your own activities. You can get involved and contribute as we build the largest database of learning methods and good practices!

- **Professional Development**

Continuing professional development strengthens your capacity as an educator, which in turn increases the life chances of the NEETs and adult learners you work with. Learn from the experiences of our teachers and trainers as they effectively guide you through a wide variety of trainings, from child protection to effective mentoring.

- **Mobility Handbook**

Mobility experiences can be very rewarding, but also require extensive planning - both for the learner and for the staff of supporting institutions. We provide a package of tools aimed at the teachers, institutions, host organizations and learners, offering you a framework of useful information before, during and after the placement.

## Connect and contribute!
