

Learn from each other

SUPREME is a E.U. LLP project which will kick-off early November 2012. SUPREME addresses student drop-out issues in VET institutes in Europe by setting up a mentoring programme and ensuring intensive and continuous cooperation between VETs and SMEs. The project is based on the successful Dutch mentoring programme MentorProgramma Friesland (MPF).

Role models . Mentoring . Networking . Empowerment . Prevention . Entrepreneurial mindset

Real life is immense more complicated than even the best textbook can tell.

Therefore, MentorProgramma Friesland (MPF) has taken an important step. The programme called in the help of socially successful citizens. Men and women who personally experienced the way to make it in life, socially, educationally and professionally.

MPF is an addition to the regular counselling at schools. The idea is that the student is looking for something and the mentor has something to offer. In close consultation with both parties, the programme looks for the best connection between "supply and demand".

Over the years, the programme has won several awards with their innovative approach on mentoring.

Mentors are, like students, from all walks of life. Some have had a brilliant career, some are only just beginning. What binds them is the life experience and expertise they have and the desire to share it with others.
