

Newsletter no 12 – ELEVET

This is the twelfth newsletter of the project. The aim of the newsletter is to keep stakeholders informed about the progress and the outcomes of the project. This letter covers the period October to November 2013. It is published in English, Italian and Polish language.

Presentation of the project ELEVET – 23 -26 October 2013 – Athens /Greece

The representatives of SEP, Prof. Jerzy Barglik – the President of SEP and Mr. Andrzej Boroń – the Secretary General of SEP/ Project ELEVET Manager took part in the 22nd Annual EFVET (European Forum of Technical and Vocational Education and Training) International Conference, which was held on 23 – 26 October 2013 in Athens/Greece. EFVET is one of the ELEVET consortium partners, responsible for the dissemination of current information about the project and its results.

Prof. Jerzy Barglik

Prof. Jerzy Barglik in the form of a multimedia presentation presented information about ELEVET, its aims, tasks and the status of implementation. After it a discussion was carried out about our Project, realized by international consortium which is coordinated by the Association of Polish Electrical . Prof. J. Barglik informed that this project relates to new forms of education of electrical engineers.

ELEVET Roundtable debate

The main objective of the conference was to exchange views and experiences on issues related to technical training and learning. Several plenary sessions and three discussion sessions took place. The conference provided an excellent opportunity to present the results of the EU project ELEVET coordinated by the SEP. Because of the great interest in the project, two sessions of roundtables took place, as well as discussion was continued at the informal meetings. The conference was attended by 200 participants from 21 countries from Europe and Asia.

The implementation by SEP of the pilot course "Power Energy Engineering Course"

The first 40-hour pilot course titled ""Power Energy Engineering Course" was held on 21 - 25 October 2013 in Warsaw. It was conducted in accordance with the requirements of the project ELEVET on electrical equipment for use up to 1 kV. The course was organized and carried out by the economic agenda of SEP – the Centre for Training and Publications (SEP COSIW). It was attended by 21 participants from various companies electricians who took part in that course with a view to obtaining appropriate professional qualifications after passing the relevant exam.

Dissemination - Energetics 2013 – 6th Lublin Power Fair – November 19-21, 2013

Mr. Andrzej Boron – SEP Secretary General/ELEVET Project Manager, during the Conference "Renewable energy sources future of the modern economy" presented information about project ELEVET.
