

Newsletter no 13 – ELEVET

This is the thirteenth newsletter of the project. The aim of the newsletter is to keep stakeholders informed about the progress and the outcomes of the project. This letter covers the period December 2013 to January 2014. It is published in English, Italian and Polish language.

SIER Survey regarding to “First draft of the VET framework and credit transfer”

SIER sent “First draft of the VET framework and credit transfer” for revision, by e-mail, to more than 1400 stakeholders/ potential users (companies and decision-makers, electrical engineers, electrical engineers associations, VET organizations) and permanently has collected feedbacks from participants to SIER courses, seminars/Round Table, by phone and face-to-face discussions.

SIER ELEVET events under CNEE 2013 (The National Power Conference and Exhibition, 23-25 Oct.2013, Sinaia - Romania)

Because of the size/complexity of the ELEVET model (“First draft of the VET framework and credit transfer”), its presentation to potential users and the preparation of partnership Agreement (for further adoption of the framework by the participants/stakeholders/potential users) has been performed during two steps:

- during CNEE 2013 Plenary Session and Paper's Session I;

- being continued during the **SIER ELEVET Exploitation Workshop**, where also were debates/discussions with the participants, regarding to different aspects of the proposed ELEVET documents.

Also, SIER organized a Round Table/seminar as **ELEVET Tutorial** addressed to stakeholders and decision-makers, during CNEE 2013 event, at “Casino” International Conference Center, Sinaia- Romania.

ELEVET National feedbacks at the 1st draft of VET Framework and credit transfer in Romania

SIER has concluded on 25 November 2013 the report/deliverable “National feedbacks at the 1st draft of VET Framework and credit transfer in Romania” (23 pages).

Report of operational testing performed in Romania, as part of WP5

Permanently, up to 17 November 2013, SIER has collected feedbacks from participants to SIER seminars. Based on them, SIER has concluded on 25 November 2013 "Report of operational testing performed in Romania" (29+ 640 pages) consisting in:

- National report of Romania on the pilot course:

a- Preparation, organization and performing of pilot course (Unit No.50: The Integration and Operation of Wind Power Plants and Photovoltaic Installations into Power Systems)

b- Preparation, organization and performing of other Modules/Sub-units, parts of Units specified into Annex to First Draft of VET FRAMEWORK and credit transfer (Unit No.57: Power Quality and Unit No.56: Smart grids)

- Collection of feedback from participants

- Conclusions

- Annexes:

- ELEVET - PILOT COURSE – Romania (SIER): Unit Course No. 50 (EN: "The Integration and Operation of Wind Power Plants and Photovoltaic Installations into Power Systems"/RO:

"Integrarea și funcționarea centralelor eoliene și a instalațiilor fotovoltaice în sistemul electroenergetic"), from Annex1 – Table 1 from

"First draft of the VET framework and credit transfer", in Romanian language (640 pages):

Curricula, Lecturer Notes and Test for Module 1,
Curricula, Lecturer Notes and Test for Module 2,
Curricula, Lecturer Notes and Test for Module 3,
Curricula, Lecturer Notes and Test for Module 4.

The nearest ELEVET meeting

Final conference – 19th May 2014, Warsaw, Poland
