Implementation of the Project ELEVET will end on 30 June 2014, however, SEP would like to continue working in the field of standardization of trainings and issuing professional certificates for electricians in the EU, and would like to implement in real life, the assumptions developed under the Project ELEVET.

Mr. Andrzej Boroń – Project ELEVET Manager informed the audience that SEP submitted an application with a new project ELEVET 2 to EACEA in Brussels, on 2nd April 2014 , under programme ERASMUS+, Sector Skills Alliances.

Duration of the Project: 3 years.

The idea of the new project includes:

- 1) Organization of trainings ending with the certificate giving a title of the vocational electrical engineer, in Poland and in the countries of our partners
- 2) Creation of a national commissions that will entitled to issue such certificate
- 3) Creation of a commission certifying training centers in the partner countries, entitled to award for the successful completion of training, ECVET points.

Information - EFVET Conference
