

News

The project partners met in Dublin, Ireland in September. The 5 basic modules are finished by now!

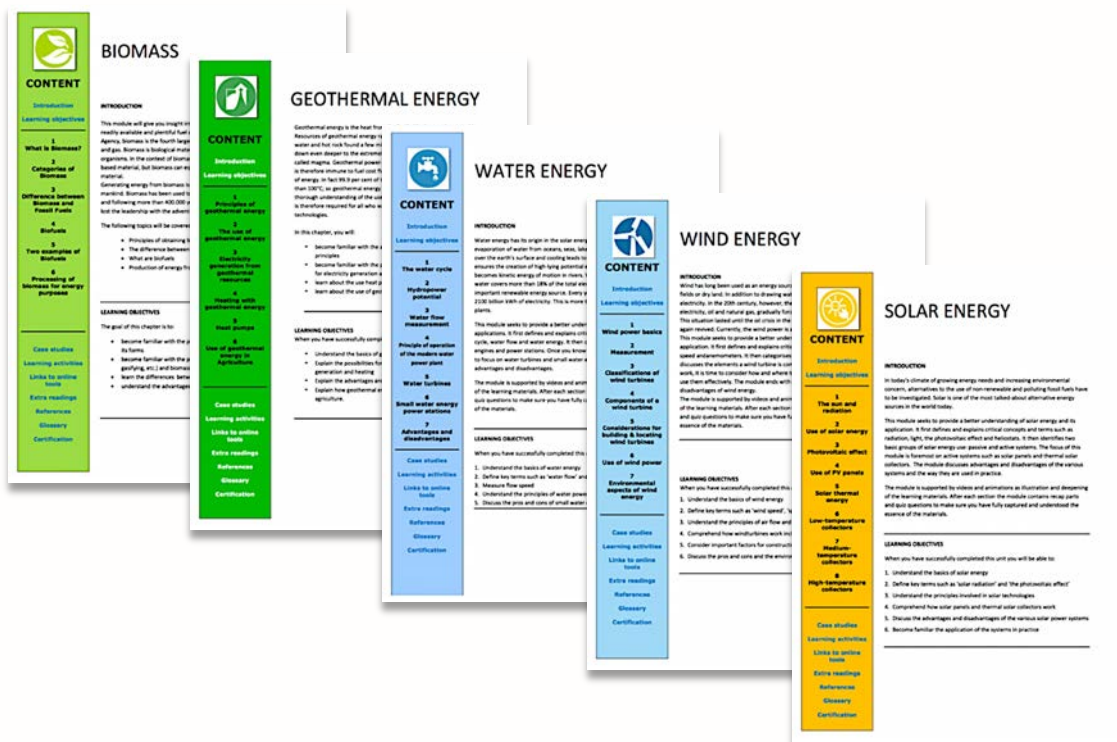

Sneak preview

What can you expect from us in 2014? We hereby give you a sneak preview of the Biomass module.

[Download it here!](#) This PDF edition already includes short explanatory videos and self-assessment

questions. The materials will be turned into full e-learning materials over the coming months.

Practical learning activities for every module are currently in development.

Results

The main final result of C-TEST is a full online course on 8 topics: Solar Energy, Wind Energy, Water Energy, Biomass, Geothermal Energy, Waste Management & Recycling, Energy Efficiency, and Environmental Awareness. All materials will become available in English, Dutch, Slovakian, Hungarian and Swedish.
