Your Path to Employment

The Foundations for Work project aims to increase the integration of young immigrants into the labour market of their host countries by producing a multilingual, multicultural training course which will allow them to acquire the basic skills needed to open up progression opportunities directly into employment or education.

The training course delivery will be accessible to engage learners with low qualifications and self-confidence. By focusing on skills such as communication and teamwork, ICT and personal finances, and using a learner-centric methodology, facilitating the acquisition of basic competencies needed to succeed in the world of work, while also boosting confidence leading to more successful employment and range of occupations.

The course modules will be:

- Oral Presentation Skills
- Using Teamwork Skills
- Self Development
- Personal Money Management
- Applying for Work
- Using the Internet for Work and Learning
- Cultural Awareness
