## Workshop 6

# Industry 4.0: are we ready?

## REPORT

Luca Boetti – IFOA, Italy ● Iñigo Araiztegui – TKNIKA, Spain ● Rasa Zygmantaite, EfVET/  
Marijampolės Kolegija, Lithuania

# A shift of paradigm

Industry 4.0

Enterprise 4.0

Society 4.0

# Are we ready?

- Industry 4.0, or 0.4?
- What about equipment and facilities?
- What about people, what about teachers and trainers?
- Are we aware that the change is already on-going?

# Three key issues

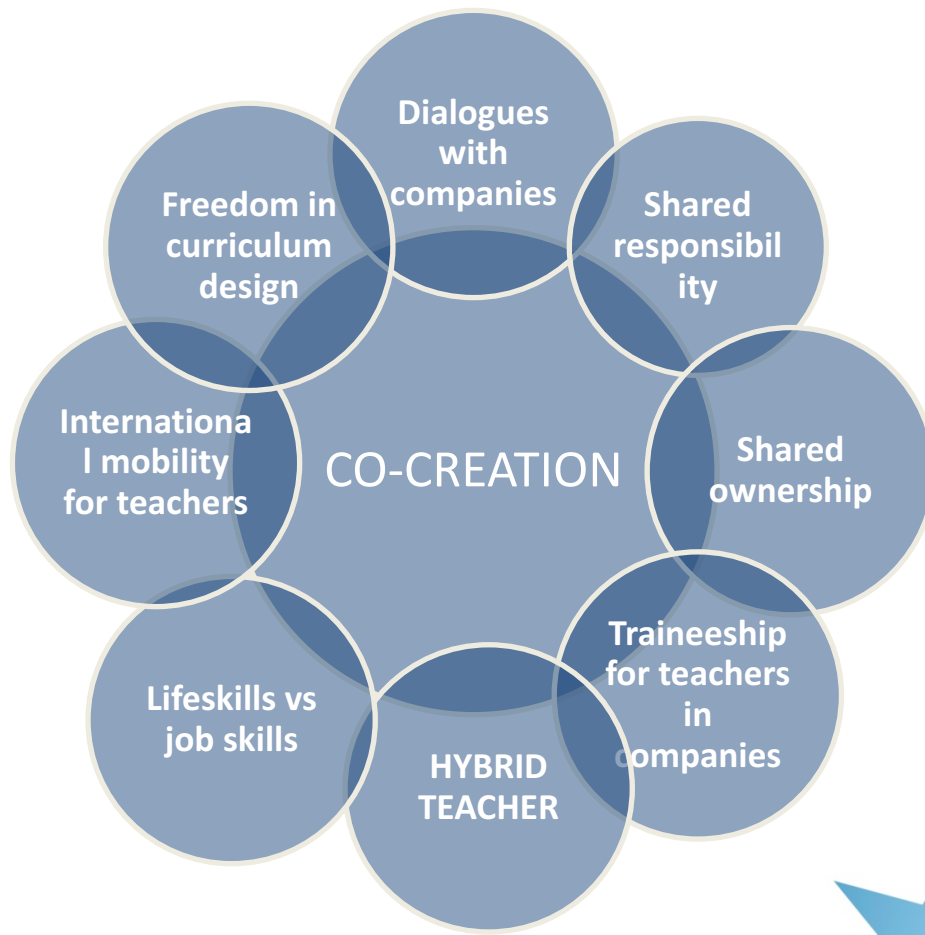

1. What is the role of VET with regard to Industry 4.0?
2. What are the obstacles for VET providers, that hindrance/slow down being ready for Industry 4.0? What are possible solutions?
3. What are the needs of VET providers, in order to get/keep ready for Industry 4.0?

# Portfolio of problems

# Portfolio of solutions
