Subgroup 1 Sustainable Globe - From global to regional

- What would be the new normal post COVID-19?
- Clarity on the digital gap in TVET and in own college
- Critical thinking might be lost in the virtual world in your classroom – how to fix that?
- Students competences are challenged, when new skills are rewarded
- COVID point: Students value their learning time at home under calm circumstances, but miss out the social activities
- Find new ways of working and take attitude concerning challenges like Circular economy; Sustainability; Globalization; Climate migration...(global millenium objectives)

Subgroup 2

- Schools are integrating technology within classes
- It's not about how to use technology but what we want to achieve with it
- We need to change fast
- Materials are being produced to teach these themes
- Awareness we need to have: the influence of all this new technology in our lives?
- Stay critical – decide with values
- We need leadership, ways of doing things and how to teach

Subgroup 3

- Industry 4.0 – Programs 4.0
- What are organizations doing today? Methods are more important than numbers
- Importance of sharing experiences about incorporating technology in these processes
- New ways of teaching and new ways of learning
- Importance of being creative

Subgroup 4

- New ways for organizations to be resilient
- Time is now, not in the future
- How to build an e.College? We need structural changes not only tech skills
- Capacity building
- Long process for schools: personnel, funding and knowledge
