EfVET Virtual Annual Conference 2020

Workshop 5
Moderators: Jon Harding & Paul Murray
Rapporteurs: Tibor Dori
WS5 Post-COVID-19 – the Education & Training roadmap to normality

• Workshop plan – structure of session

• Outcomes - produced throughout the workshop

• Introduction - all participants
“The Roadmap to normality describes how the COVID-19 restrictions will be lifted. Many countries are setting out their own individual guidelines and roadmaps regarding this matter. In many ways we are seeing an acceleration of the nascent changes that already existed. Online learning, for instance, previously a key point within a college’s 2 to 3 year roadmap has now become an integral delivery mechanism for courses currently taking place”

“Jon Harding Example from Bridgwater and Taunton College”
Roadmap? Normality? The New Norm?
Break out questions

• Will international students continue to study remotely for the foreseeable future?

• What are the benefits of doing mobilities Nationally and Internationally within the current situation and for the future of student mobility? i.e. KA1

• Do you think students will consider vocational educational training through this new medium, including the quality of their online instruction?
