New Reality in VET – ROUND

1

5th November 2020,
Moderator: Paulius & Gaby
Rapporteur: Nacho

A decorative graphic in the top-left corner consisting of several overlapping yellow and orange starburst shapes of varying sizes and orientations.

Overview & Keywords: New level of digital learning processes

In the year of pandemic influences 2020 VET still must face immense challenges as:

- A. Developing digital structures which are likely to enable all students to get ahead
 - B. Cooperating with VET partners as companies in another quality
 - C. Organizing and creating motivating learning atmosphere while using digital tools
- 
- A decorative graphic in the bottom-right corner consisting of several overlapping blue and cyan starburst shapes of varying sizes and orientations.

Coming to face the facts – Challenges !

- Get students into digital, primarily those with fewer opportunities.
- Day to day at school makes difficult to develop digital learning context (lack of time, flexibility and resources).
- Lack of interest when cooperating with companies (virtual/blended internships or apprenticeships).
- **Teachers** and students' digital competences.
- Lack of clear direction from government about future learning (will we forget about everything we have done in 2020?).

Rethinking challenges and possible solutions !

- Individualisation of the learning process
- Grant access to digital devices and connection
- Teachers training still needed (digital competences + environment)
- Adaptation of learning process to digital context (even in mobility)
- Imagination: SELFIE, cooperation with companies
- Find out solutions for making blended learning (and mobility) possible.

New Reality in VET – ROUND 2

5th November 2020,
Moderator: Paulius & Gaby
Rapporteur: Nacho

HOUSE ON FIRE!! - KEY MESSAGES

- Learn how to manage stress
- Clear direction from Governments is needed (too much contradictions)
- Establish a system based on culture of trust (flexibility and new work organization).
- Train the trainers (avoid teachers drop out!)
- Future with much more blended education and Lifelong Learning, but tendency to come back the old way. New opportunities and retraining based on COVID+Economic crisis.
- Imagination: bringing companies to schools, SELFIE, digital methodological groups

Final Conclusions – Can EfVET support?

- Declaration Osnabrück: “PUSH AHEAD WITH DIGITALISATION”. WHAT DOES THIS MEAN? No more contradiction please
